Techniques, Inc.**

**Diagram Index**

<b>Module</b>	<b>Introduction</b>
	Easytrieve Report Generator
	Easytrieve Structure
<b>Module</b>	<b>Defining Data</b>
	S fields - Static Working Storage
<b>Module</b>	<b>Producing Reports</b>
	Page Structure
	SEQUENCE Causes a SORT
<b>Module</b>	<b>Processing Statements</b>
	START and FINISH Procedures
<b>Module</b>	<b>File Handling</b>
	File Processing Variables
	File Types in Easytrieve Programs
	SORT Permits a BEFORE Procedure
	VIRTUAL files are Allocated by Easytrieve
	Match/Merge Files
	Iterations in a Three File Match/Merge
<b>Module</b>	<b>Table Handling</b>
	Searching a Table
	Using an Index
	Using an Index and a Workarea
<b>Module</b>	<b>Report Procedures and Options</b>
	Report Procedures are Processed After Normal Processing
	Easytrieve Order of Execution
	Placing a Report on a Unique Printer File

<b>Module</b>	<b>Further Processing</b>
	Procedures on the JOB Statement
	Controlled Input (1)
	Controlled Input (2) – NULL
	Locating Macros
	Calling Other Programs
	Using S Fields
<b>Module</b>	<b>Handling VSAM Files</b>
	File Processing Variables
	CREATE RESET Reloads a Reusable File
	Sequential Processing
	Random Processing
